

# Automate & Simplify

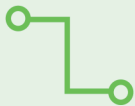

## Solutions for High-Volume Law Firms

Put your firm ahead. Support large caseloads, offload burdensome tasks, and increase your team's ability to focus on their cases with thoughtful solutions that don't require any additional headcount.

### Let's Get Technical.

We offer solutions to improve speed and efficiency before, during, and after service of process.

#### Get Connected

Enable seamless data transfers between our system and yours using EDI or API. Ask our team about implementation requirements. These connections open doors for additional enhancements including bulk orders and file exchanges.

#### Automate Data Collection and Processing

Send or receive data from a variety of resources automatically including hearing dockets, collections accounts, garnishment answers, dismissals, and more.

#### See Progress Around the Clock

Workflows and automation keep your case moving 24/7. See case status and information updates in your online account in real time.

### Save Time

Use tech to tackle repetition that eats away at your day.

### Optimize Resources

Spend less on back-office costs and additional vendors.

### Reduce Errors

Open up fewer opportunities for manual entry errors.
